RE: Weber Valley Heights Association

Dear Mr. Reed

In response to your inquiry, dated June 13, 2013, the Weber Valley Heights Association (WVHA) is the named operator of the Weber Valley Heights water system (hereinafter "Water System"), and is regulated under a permit to operate issued by the Department of Environmental Health ("DEH"). The Water System is permitted as State Small Water System, which is a community water system that serves less than 15 service connections, and is regulated under California Code of Regulations Title 22. DEH records list the well on your property, located at 44100 Ginger Circle, as part of the Water System, and that it has been regulated as such since 1990.

As you have been informed before, DEH's sole responsibility in this matter is to regulate the water quality of the well and the overall operation of the water system as it related to the provision of water to WVHA. DEH is not responsible for determining the existence or non-existence of easements related to the wells. To the extent that you have any concerns regarding the Water System's claim that it has an easement related to the use of the well on your property, we would advise you to raise those concerns with the Water System and/or WVHA or to seek out your own legal representation. However, if you have any questions about the water quality and or surface features of the water system please feel free to contact our department, as we would gladly discuss those issues.

Thank you

Jeff Johnson  
Program Chief II
